

# Independent Software Vendor (ISV) Program

This document describes the 4PSA program for software developers.  
For more information, please contact [channel@4psa.com](mailto:channel@4psa.com).

## Program Overview

4PSA software provides open APIs that allow third parties to easily develop solutions that interact with various internals and functionalities.

We are committed to helping our fellow developers built their solutions with online documentation, tools, examples, and technical support.

### **Two levels of certification (free Silver and advanced Gold)**

Companies that join the Independent Software Vendor (ISV) Program are formally approved by 4PSA and their skill levels are checked.

## ISV Partner's Advantages

- Get your solutions recommended to 4PSA software users
- Access software development projects for 4PSA software
- You can participate to VoipNow Platform events, promotions, and marketing initiatives
- You can use the 4PSA Independent Software Vendor (ISV) logo in marketing materials
- Your solutions are displayed in the 4PSA Partners Zone

## Partnership Levels

Benefit	Silver Level	Gold Level
Free developer certification	No, not required	Yes, required
Listing in 4PSA Partners Zone	Yes	Yes
Use of the 4PSA trademarks	Only ISV logo	Yes
Free developer license	No	Yes
Cost	Free	US \$1000/year

## Basic List of Requirements

- Experience with 4PSA products, development of APIs, and plugins
- At least one software developer certified by 4PSA
- Independent Software Vendor with proven track record
- Ability to support customers in a professional way
- At least one solution available for a 4PSA software product

## How to Join

Just visit:

<http://www.4psa.com/partners/isvcertified>

and apply online for the 4PSA Independent Software Vendor (ISV) Program.

Thank you!
