

Certified Trunk Provider Program

This document describes the 4PSA Certified Trunk Provider program.
For more information, please contact channel@4psa.com.

Program Overview

4PSA is continuously searching for SIP providers that can deliver the best experience to VoipNow Platform customers.

In order for our clients to fully enjoy the benefits offered by VoipNow Platform, we only certify SIP providers that are able to deliver the highest availability, call quality, and superior functionality. The 4PSA Certified Trunk Provider logo is the guarantee of the quality of service and proves that the service provider cooperates with 4PSA to address functionality and interoperation issues.

Two levels of certification (free Silver and advanced Gold)

Technology and the market are constantly evolving and, as a result, so are our requirements. For this reason, 4PSA certified Trunk Providers must be retested with all major VoipNow Platform releases.

Easily Attract VoipNow Customers

- Your SIP trunking services are highlighted directly in VoipNow
- VoipNow customers can easily choose and configure your services
- You can participate to VoipNow Platform events, promotions, and marketing initiatives
- You can use the 4PSA Certified Trunk Provider logo in marketing materials
- Your services are displayed in the 4PSA Partners Area

Partnership Levels

Benefit	Silver Level	Gold Level
Technical certification by 4PSA	Basic	Extensive
SIP Trunk template in VoipNow	Yes	Preferred positioning
4PSA signed trunk template	No	Yes
Cost	Free	US \$1000/year

Basic List of Requirements

- Grant 4PSA access to your service. For testing purposes, you must provide 4PSA with two DIDs and reasonable credit in order to be able to perform SIP signaling and media tests.
- Work with 4PSA to address potential issues with your service. All issues reported by 4PSA are backed up by a relevant RFC.
- Place the 4PSA Certified Trunk Provider logo on your website.
- Join 4PSA in a press release or case study (optional).

How to Join

Just visit:
