

Certified VoIP Manufacturer Program

This document describes the 4PSA Certified VoIP Manufacturer program.
For more information, please contact channel@4psa.com.

Why We Need Your Help

4PSA is continuously searching for the hardware that will give our customers the best experience while using the VoipNow Platform.

In order for our clients to fully enjoy the benefits provided by VoipNow Platform, we are ready to certify only high-quality products that enhance software utilization. The 4PSA Certified VoIP Manufacturer logo is proof of 4PSA's faith in the product and a symbol of our partnership with the device manufacturer.

Certification tests are free of charge.

Both technology and the market are constantly evolving and so are our requirements. For this reason, 4PSA certified VoIP products must be retested for all major VoipNow Platform releases.

Take Full Advantage of Your Certification

- Use the 4PSA Certified VoIP Manufacturer logo for approved products, packaging, and associated marketing materials.
- Participate in VoipNow events, promotions, and marketing initiatives.
- Get your equipment recommended by 4PSA sales team.
- Let customers know that your product is fully compatible with VoipNow and receive recognition in the 4PSA Partners Area.

What You Should Do

- Submit your product for testing under the 4PSA VoIP Certification terms.
- Work with 4PSA to address potential issues with your equipment. All issues reported by 4PSA are backed up by relevant RFC.
- Place the 4PSA Certified VoIP Manufacturer logo on your website.
- Join 4PSA in a press release or case study.

Join the 4PSA Certified VoIP Manufacturer Program

Just visit:
