Independent Software Vendor (ISV) Program

This document describes the 4PSA program for software developers.

Program Overview

4PSA software provides open APIs that allow third parties to easily develop solutions that interact with various internals and functionalities.

We are committed to helping our fellow developers build their solutions with providing online documentation, tools, examples, and technical support.

4PSA

Two levels of certification: Silver and Gold

Companies that join the Independent Software Vendor (ISV) Program are formally approved by 4PSA and their skill level checked.

Benefit	Silver Level	Gold Level
Free developer certification	No, not required	Yes, required
Listing in 4PSA Partners Zone	Yes	Yes
Use of the 4PSA trademarks	Only ISV logo	Yes
Free developer license	No	Yes
Cost	Free	US $1000/year

Requirements

- Experience with 4PSA products, development of APIs, and plug-ins

- Independent Software Vendor with proven track record

- Ability to support customers in a professional way

- At least one solution available for a 4PSA software product

- At least one software developer certified by 4PSA, for Gold level

Benefits

- Get your solutions recommended to 4PSA software users

- Access software development projects for 4PSA software

- You can participate in VoipNow Platform events, promotions, and marketing initiatives

- You can use the 4PSA Independent Software Vendor (ISV) logo in marketing materials

- For Gold level, a VoipNow Startup 100 extensions free developer license (not for resale) is included

How to Join

1 **Get your developer certification** , required only for Gold level.

2 **Sign-Up** by completing the online application form. Please visit http://www.4psa.com/company-partnerapply.html?program=isv and apply. We will review your existing solutions for 4PSA products.

3 **Have your solutions recommended** to 4PSA software users
